

Worried about a potential chronic illness in your future?

Find out how the Accelerated Access Solution[®] may work for you

By adding the Accelerated Access Solution (AAS) rider to an Secure Lifetime GUL3, Value+ IUL or Elite Index[®]II policy, you can access income tax-free death benefits if diagnosed with a chronic illness.^{1,2}

Problem: Chronic Illness Hits Close to Home

Henry* is a 55 year old husband and father who is in good health and has seen first-hand how a chronic illness can adversely affect a family's financial plan. He has a brother, Edward, who has been dealing with the aftermath of a stroke for a few years and has experienced a significant depletion in financial assets due to the incredible costs of care due to his condition.

Specifically, Edward had to tap into his retirement dollars to pay for the rising medical bills, a wheelchair, adapting his house with entrance ramps and electric stairwell lifts as well as his day-to-day physical care due to his limitations, leaving his spouse, Emily, with dramatically smaller retirement resources when Edward passes away. To make matters worse, at the time of Edward's death, Emily's Social Security income will drop by 1/3 to 1/2 of the couple's total.

Henry wants to protect his family's assets and create flexible financial options in the event a chronic illness should occur.

Solution: Life Insurance You Don't Have to Die to Use

Henry purchases a \$250,000 Secure Lifetime GUL 3 life insurance policy with the AAS rider to provide the flexibility and protection he is looking for. The base policy can provide funding in the event of a chronic illness diagnosis offering Henry an option that protects his retirement portfolio from being depleted by medical expenses and physical day-to-day care and assistance. The death benefit remaining after Henry passes away can help his surviving spouse with additional assets to offset the reduction in Social Security income that occurs when one spouse dies.

Did You Know

About 91%

of older adults have at least one chronic condition, and 73% have at least two.³

Every 34 seconds

an American has a coronary event⁴ - 75% of people who suffer a heart attack survive at least three years⁵

Every 40 seconds

an American has a stroke⁴ - 70% of people who suffer a stroke survive at least three years⁶

\$220,000 for out-of-pocket medical expenses

equals the healthcare costs throughout retirement for an average 65-year old couple retiring now⁷

73% of respondents

to a recent survey say serious health problems are their major worry about living to 100⁸

With the optionality built into the policy he has the following choices:

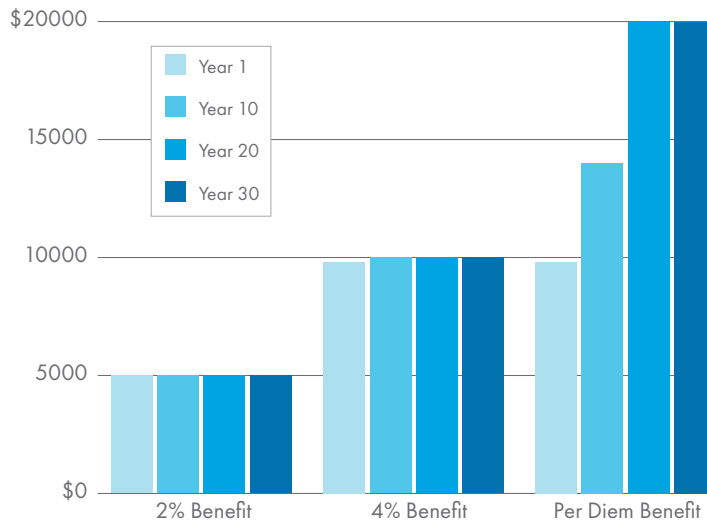

- Choose an Accelerated Access Solution total benefit amount anywhere between \$125,000 and \$250,000
- Three monthly benefit payment amounts options as shown in the chart at right.

Henry chose the 100% total benefit option giving him a \$250,000 Accelerated Access Solution benefit. He also chose the per diem benefit payment option at the time of purchase.

Fast Forward

Twenty years later when Henry was 75 and in retirement, he suffered a heart attack and activated the rider to access a portion of the death benefit each month². Because he chose the per diem option, the monthly benefit amount had increased to approximately \$20,000 in the year he went on claim, and was payable for up to 12 months. The Accelerated Access Solution allowed his family to use the funds to pay for his medical and physical care expenses and helped to protect Henry's retirement assets for his surviving spouse.

Monthly Benefit Options: \$250,000 Death Benefit

Note: IRS caps the maximum daily rate each year. For 2015, the maximum per diem is \$330/day or \$9,900/month. Projections based on IRS 2015 per diem in year 1, and increasing 4% each year thereafter. Hypothetical representation for illustrative purposes only.

Life Insurance You Don't Have to Die To Use

Asset Protector, available on Secure Lifetime GUL 3 policies, provides a unique package of living benefits that allow access to death benefits while living. The Asset Protector product suite includes two riders: the Accelerated Access Solution which allows income-tax-free access to death benefits if diagnosed with a chronic illness, plus the Lifestyle Income Solution[®] which allows access to your death benefit for any reason after age 85.
